Record Layout

SID data will be submitted to CEPI using a comma-delimited file format. This is commonly referred to as a comma separated value (CSV) file. Please note the following items pertaining to the layout of the file:

1. Fields A, B, and C must be submitted at the beginning of each record followed by the numbered fields as defined in the SID Data Field Descriptions.
2. Each field must be separated by a comma.
3. The reserved fields must be separated by a comma and should not contain any data.
4. Completed lines should end with the value of the last field, followed by a carriage return/line feed character pair.
5. A comma will always be treated as a field separator, so be sure that field values do not contain any comma characters.
